

The diagram shows a page layout with three nested rectangular regions. The outermost region is a red-bordered rectangle representing the full page dimensions. Inside it is a blue-bordered rectangle representing the area for important objects. Within the blue-bordered area is a black-bordered rectangle representing the final product format. Three arrows point from the left side of the page to the boundaries of these regions: a black arrow to the left edge of the black-bordered area, a red arrow to the left edge of the blue-bordered area, and a blue arrow to the left edge of the red-bordered area.
